

Dear Palm Park Customer,

At the request of Bexar County, East Central Special Utility District is upgrading the water mains in the Palm Park Subdivision. On Monday, November 24th, 2014 the water will be off in the entire subdivision from 9:00 AM until 4:00 PM, as one of the new lines is tied in to the existing water main. This tie in will help reduce any outages while the rest of the project is completed. Periodically in the next three months, your water may be turned off due to emergencies that may arise as construction continues. In these situations we will work as quickly as possible to restore your water service, and we apologize for any inconvenience this will cause.

If you have any questions, feel free to contact our office at 210-649-2383.

We appreciate your patience as we complete this project.

East Central Special Utility District
